

HOW MUCH HONEY DOES A **SINGLE BEE** MAKE?

THE WORK OF A SINGLE BEE

Produces about **1/12** teaspoon
of honey in its lifetime!

A Honeybee
will travel up to
5 miles if food
is scarce

AMAZING HONEYBEE FACTS:

- It takes about **2 million** flowers for bees to make just 1 pound of honey!
- To make 1 pound of honey, bees need to collect up to **8 pounds** of nectar.
- A honeybee visits about **50-100** flowers per trip and about **5,000-7,000** flowers a day!

1

Bees are the only insects that make food for human consumption.

2

Honeybees cannot see the color **Red** but can see **Blue**, **Green** & **Yellow** very clearly.

3

They collect pollen, nectar, water, and propolis.
